

Multi cable winder

Ease of storage for your cables

Performance:

This system allows to roll freely and quickly all kinds of cables.
(electric, pneumatic, hydraulic or video...).

After this cycle, the operator may then link the cable and remove it from the socket to storage.

It is also possible to unwind the cable quickly and without mechanical stress..

Accepted technical characteristics:

Cable length : 5m to 500m and more

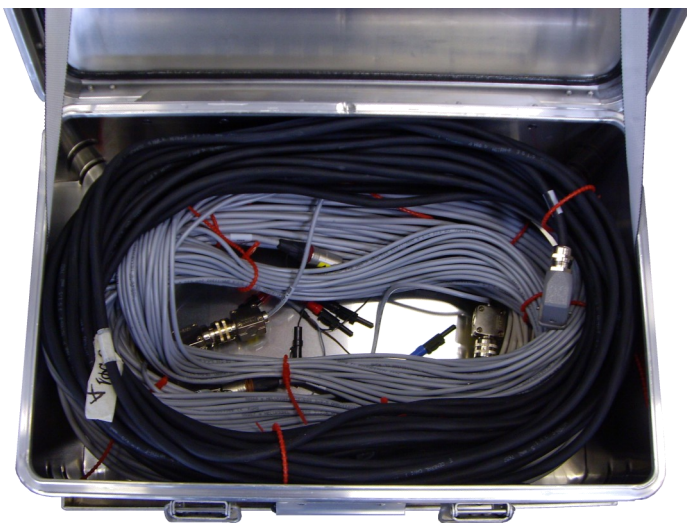

Cable diameter: 1 to 30 mm

Max weight: 3kg to 30kg

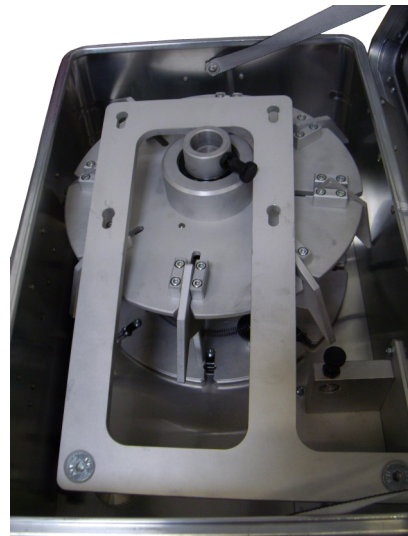

We consider all other requests.
